

Helicopter Seat & Door Stand

This versatile rack is a must-have item for every helicopter maintenance facility as well as for aircrews who need to reconfigure seats or remove doors mid-mission. Aircraft doors and seats are routinely removed during regular maintenance and this stand can be configured to hold up to 12 troop/crew seats as well as two cockpit doors. Protects seats and doors from damage caused by laying them on floors or workbenches, while positioning them conveniently for maintenance or upfits.

FEATURES & BENEFITS

- Holds up to 12 UH60 troop/crew seats plus 2 cockpit doors
- Replaceable brackets can be configured to handle seats and doors of most military and civilian helicopter airframes
- Prevents damage caused by floors or workbenches
- Made of lightweight aluminum with stainless steel brackets and connectors
- Folds and collapses for easy transport or compact storage
- High quality locking casters provide stable work stand and moveable convenience
- Durable powder coating
