

# AirTEP Airborne Tactical Extraction Platform

**The fastest way up  
and out.**

## **VERSATILE**

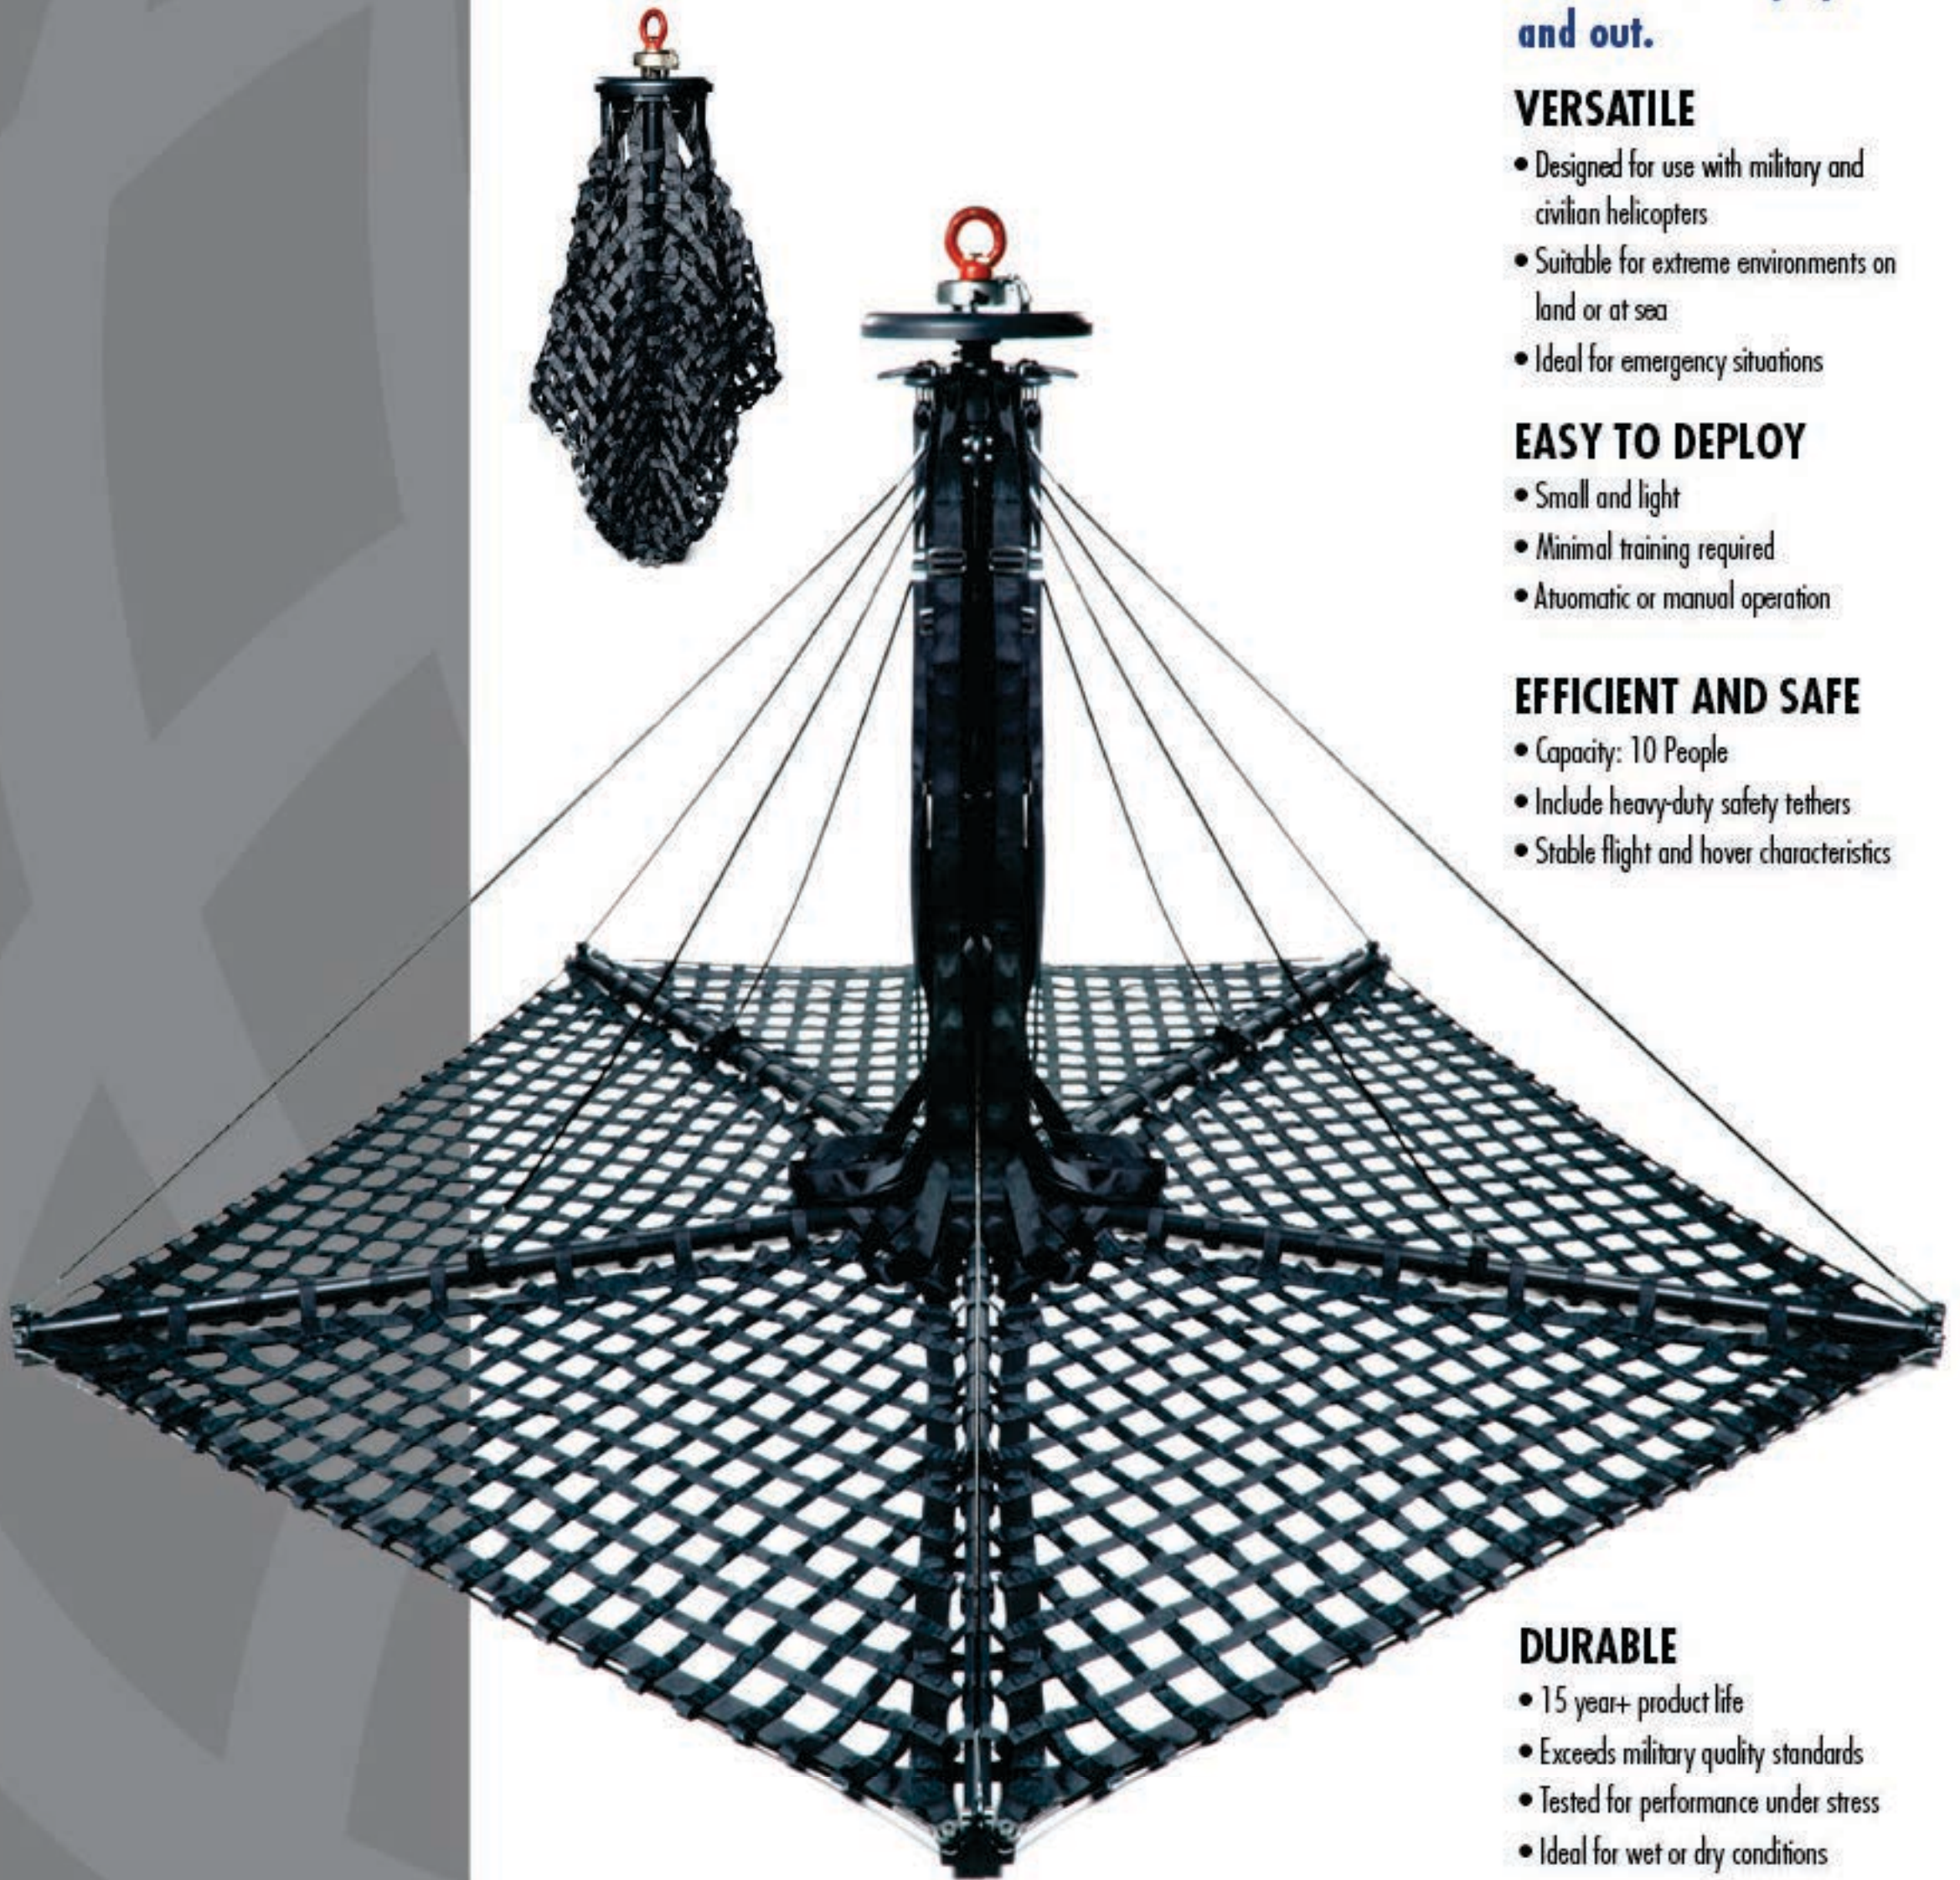

- Designed for use with military and civilian helicopters
- Suitable for extreme environments on land or at sea
- Ideal for emergency situations

## **EASY TO DEPLOY**

- Small and light
- Minimal training required
- Automatic or manual operation

## **EFFICIENT AND SAFE**

- Capacity: 10 People
- Include heavy-duty safety tethers
- Stable flight and hover characteristics

## **DURABLE**

- 15 year+ product life
- Exceeds military quality standards
- Tested for performance under stress
- Ideal for wet or dry conditions

## **DESIGNED FOR:**

- All Military Branches
- National Guard and Reserves
- SAR and CSAR Missions
- Special Forces - Insertion and Extraction
- Law Enforcement
- Homeland Security

# AirTEP Airborne Tactical Extraction Platform

The fastest way up and out.

## MATERIALS

AirTEP is engineered for use in harsh conditions. Heavy duty aluminum and stainless steel components provide strength and durability. Kevlar webbing delivers maximum safety for personnel plus exceptional thermal, chemical and abrasion resistance.

## SPECIFICATIONS

### DIMENSIONS

- |                           |  |
|---------------------------|--|
| • Net weight              | 115.9 lbs/52.6 kg                              |
| • Dimensions folded       | Height 4.9 ft/1.50 m<br>Diameter 1.3 ft/0.40 m |
| • Dimensions open         | Height 4.9 ft/1.50 m<br>Diameter 9.5 ft/2.90 m |
| • Max lifting capacity    | 3,500 lbs/1,500 kg                             |
| • Max indicated air speed | 115 mph/100 kts (fully loaded)                 |

### PERFORMANCE

- |                     |                               |
|---------------------|-------------------------------|
| • Temperature Range | -22°F to 122°F/-30°C to +50°C |
| • Humidity          | 0 to 100%                     |
| • Lifetime          | 15 years+                     |
| • Heat resistance   | to + 1,601°F/+872°C           |

## CERTIFICATIONS

- Material resistance in harsh conditions is certified by GAM EG 13 procedures (dry and damp temperature, saline environment) and FAR 25 procedures (fire resistance)
- NF – ISO 9002 compliant
- Certified by French Ministry of Defence / Aeronautical Program Services:  
Technical act DGA N° 333-04/ SPAé/ ST/ CEA – 27th of September 2004  
Technical act DGA N° 196-05/SPAé/CEA – 1st of June 2005
