

Aerial Delivery Clevis

Capewell Aerial System's aerial delivery clevis products consist of a clevis, bolt and nut. They are available in two standard sizes.

MEDIUM CLEVIS

The 3/4" medium clevis is used on the G-12 cargo parachute and airdrop platforms

LARGE CLEVIS

The 1" large clevis is used on the G-11 parachute and at various points when rigging and airdrop load

Please consult your CAS representative to discuss your specific needs.
