

Life Support Air Compressor (LSAC)

The LSAC is a deployable breathing air compressor

FEATURES & BENEFITS

- The Aerial LSAC is a three stage high pressure breathing air compressor designed to fill the Aerial MRS-4500 (Mobile Refill System).
- The LSAC is lightweight and a portable source of breathing air.
- The LSAC operates on 50 or 60 hertz single phase power.
- The LSAC includes an hour meter, pressure switch, vibration isolators, and purification system with automatic condensate drains.
- The LSAC is manufactured by BAUER Compressors, the world leader in breathing air compressors.
- The LSAC is mounted in a protective frame with wheels.
- Warranty: One year after purchase.

Part Number	AMTC-LSAC
Maximum Pressure Rating	6000 PSI (414 bar)
Electrical Required	208-240V Single Phase/ 50 or 60 hertz
Male Plug Supplied	NEMA6-30, 6 Ft.
Air Quality Output	CGA Grade D and E
Motor Power Output	5 HP (3.7kW)
Dimensions (L,W,H in)	57.5"L, 30.75"W, 35.5"H
(L,W,H mm)	1460mm L, 781mm W, 901mm H
Weight, lbs (kgs)	400 lbs (181kgs)
Flow Rate	4 SCFM (113 l/m)
Pressure Setting	5500 PSI (379 bar) Regulated
Operating Range	0 to +113F / +4.4C to +45C
