

Hi-Viz Static Discharge Cable

This is the high-visibility version of our standard Static Discharge Cable. A Discharge Cable is designed to discharge static electricity on the hoist hook prior to contacting an individual or object.

FEATURES & BENEFITS

- "Hi-Viz" neon-yellow plastic coating wrapped with a light-reflective stripe makes this cable easier to see in all weather conditions.
- Prevents electrostatic shock
- Cable is 10 feet long
- Compatible with all rescue hoist hooks
- Attaches with stainless steel gated snap hook
- 5/16" diameter steel cable
- Break-away safety feature at 250 - 300 lbs.
- Total assembly weight: 1.2 pounds
- PN/AMTC-M2004-NY

US Patent # 6,942,177 B1
