

Aqua Lung CA-EBS Pool Trainers

PSTASS Second Stages

- Supports shallow water compressed air introduction by a CA-EBS instructor for new users
- Multiple 10 foot hoses allow for up to 4 users in shallow water and can extend training time by the use of a large supply cylinder
- High performance Aqua Lung 1st stage SCUBA regulator delivers smooth supply of air when connected to a single or double SCUBA cylinder
- Available with either the PSTASS or SEA-LV2 second stages
- Available with either a "YOKE" or "DIN" cylinder connection (cylinder not included)
