

Rescuer/Survivor Personal Restraint Tether

Rescuer/Survivor Personal Restraint Tethers (PRTs) are adjustable in length from 3 feet to 8 feet. They use colored reflective material on both ends for easy identification in the aircraft. Each is equipped with double action safety hooks for secure attachment. They are fabricated from mil-spec webbing, Type VII with break strength of six thousand pounds.

FEATURES & BENEFITS

- Adjustable from 3 to 8 feet
- Color coded with reflective material on each end for easy identification
- Kong Tango double action safety hooks
